

**Strasbourg,
September, 26-29th 2023**

Young Crystallographers Meeting #1

The French Association of Crystallography (AFC) and the German Society for Crystallography (GSC) are proud to present their first meeting made for Young Crystallographers by Young Crystallographers. This event aims to gather Young Researchers, Doctoral & Post-Doctoral fellows and Engineers in crystallography, all sciences combined.

The multidisciplinary character of crystallography will be promoted during this event with sessions mixing talks from **Biology**, **Chemistry**, **Physics**, **Mineralogy** and **Heritage Science** fields.

Speakers:

-  Invited Crystallographers with inspiring professional experience.
-  Invited Crystallographers from industry.
-  You, via talks and posters broadly accessible to be understood by non-specialists.

Work with Us

Special Session:

Meet Companies
&

Discover the place of
Crystallographers within them

GUEST OF HONOUR

Jean-Pierre SAUVAGE

Nobel Prize of Chemistry 2016

for the design and synthesis of molecular machines

Abstract Submissions deadline : 15th July 2023

Complete program, more information and registration
on the website : <http://www.ycm1.xyz/>
